

CITB SPECIALIST APPRENTICE PROGRAMMES IN

Façade Preservation

Stone Fixing

Stone Paving

Authored & Delivered by

Priestman Associates LLP

For the training division of
Stone Federation GB

StoneTrain
○○●● Training for the industry

Purpose of this programme:

We act as StoneTrain training facilitators for three CITB Specialist Apprenticeship Programmes. Each programme covers approx. 20 days of off-site training over a two year period, allowing your employee to remain focused on your projects. Also included in the programme is their assessment against the relevant level 2 NVQ. Programmes include:

- Façade Preservation
- Stone Fixing
- Stone Paving Installation

Duration of one of these programme:

Approx. 20 days off site training over 2 years.

Programme content:

- Skills practice and theory
- Health & safety
- Conservation philosophies
- Building dynamics

Programme fee:

If you are a CITB registered firm then the fee charged by StoneTrain is significantly less than the grant you will receive from the CITB.

For a no obligation information pack please email: office@priestmanweb.com providing the following information:

- Your firm and your contact details
- Your firms CITB registration number
- Number of employees requiring training and their years of construction site experience
